ABOUT ME

I am a skilled and versatile full stack web developer with 4 years of experience in designing, developing and deploying dynamic web applications. Proficient in both front-end and back-end technologies, I specialise in creating responsive and user-friendly interfaces using HTML, CSS, JavaScript, Bootstrap, SASS, and Typescript. I also make use of React and Next.js. On the server side I excel in building robust and scalable APIs with Node.js and Express, coupled with a strong understanding of using MongoDB. I thrive with a passion for clean code and continuous learning, delivering high-quality solutions that meet both user needs and business objectives. Currently I just ventured into the world of app development with the use of REACT-NATIVE and I have an intermediate knowledge on that. Whereas I also thrive to learn more and grow my knowledge on it.

EXPERIENCE

- Company Name | Job Title

EDUCATION

2016 - 2021 University of Port Harcourt | Bsc in Sociology

2023 - 2024 Rivers State college of Health, Science and Management Technology | HPD in Social Work
